### Pokayoke for Alpha clump

A pliers wrench is a tool for pulling and unfixing the pin of the alpha clamp used for fixation of a radiator hose, an engine hose, etc.

The pliers can equip with the transmitter which sends having held the pin on wireless. In combination with a receiver, you can use as an object for error proofing(POKAYOKE).

### Timing of transmission

It sends at the moment of having grasped the alpha clamp by the pliers wrench. If an alpha clamp is grasped, power will be applied to the head part of pliers. Because it is same design as a torque wrench if power is applied to a head part,an internal limit switch is struck and it has became a mechanism that transmitter sends.

**Prevention function of** transmission for grasping nothing

Plier wrench has a prevention function of transmission for not grasping the thing of the thickness more than fixed. It is set as over 1mm before shipment.

The mouse of edge is opened to fixed width.

### with high hardness material.

Tip of edge Tip part is brazed

Stopper It is for prevention

for opening the mouse of tip of edge.

Transmitter

With Wireless function

It can wear with TW-800T.

### Switch part

LS type(Limit switch) Design is same as Torque wrench.

# **(PLIER WRENCH LINE UP)**

Small type [JPS100Y]

Bent nose upper type [BN200YU2] Length 250mm Weight 410g Aperture 10∼12mm Maximum about 25mm

Light type [JPS175Y2]

Bent nose under type [BN200YD2]

Stopper

It is an adjustable

screw for prevention

for grasping nothing.

Light and Slim type [JPS175YS]

Aperture wide type [LN240SR] Length 240mm Weight 350g Aperture 17~20mm Maximum about 30mm

Standard type [P200Y2] Length 245mm Weight 410g Aperture 10~12mm Maximu

elow production type is not included a transmitter. Please order transmitters separately.

Long type [T-308R] Length 255mm Weight 380g Aperture 17mm Maximum about 17mm

Shin nose type [SN200Y2] Length 250mm Weight 420g Aperture 10~12mm Maximur

Check pen type [CP-03]

\*It is possible to make about other maker pens than except the above.

### [Custom-made]

type【SP-200】 JPS100Y IPS175YS SN200Y2 BN200YD2

**(SPRING FOR MAINTENANCE)** 

BN200YD2

For aperture wide type [SP-202] T-308R

We make from 1pcs.Please contact us.

2 Way Communication Frequency Hopping Function Original Protocol

## **Transmitter TW-800T**

TW-800T is a transmitter used fixing to a torque wrench, plier wrench, check pen and so on.

- You can look see the communication OK/NG by LED lighting and flashing.
- TW-800T uses CR2032 type of battery. Battery life is about 300,000 shots.
- TW-800T has the function of remaining battery level notice and communication check by using test switch.
- It is used polypropylene material for protecting broken the case.

**OPTION** Protect Cover

For small size wrench [TW-510C-1]
For middle and big size wrench [TW-510C-2]

Ref) We recommend to use TW-510C-1 for small wrenches to the wrench not more than 50N.

# Receiver TW-800R

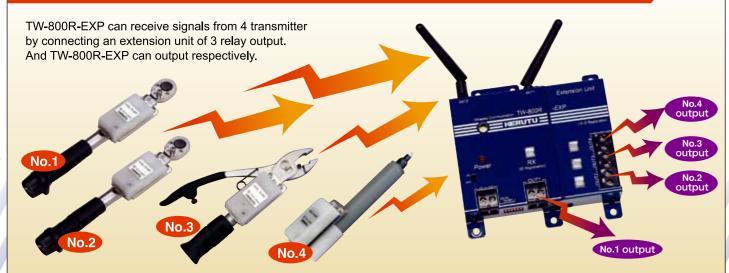

TW-800R is a receiver of 1 point relay output type.

- TW-800R is used by AC100-240V by using AC/DC adaptor of an option.
- The diversity antenna which realizes stable communication is a standard.

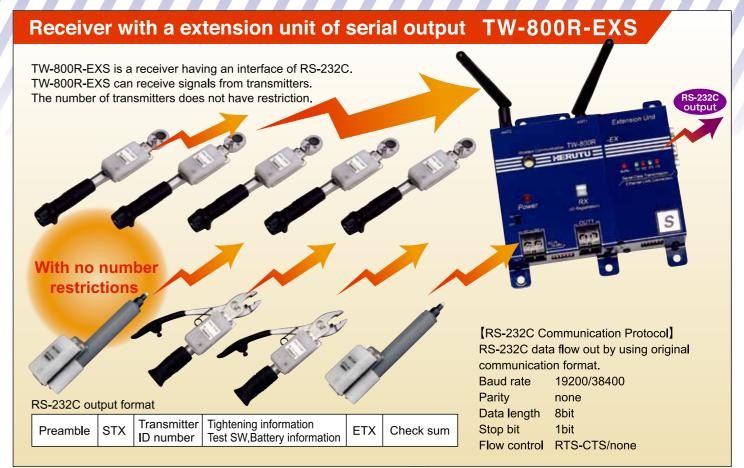

- The diversity antenna which realizes stable communication is a standard.
- TW-800R is small and light. Weight is 250g, Dimension is 10cm×8cm×3cm.

# Receiver with a extension unit of 3 relay output TW-800R-EXP

\*We don't sell a body of torque wrench.

\*We can make LAN type. Please contact us.

### [Specification]

Specification				
Items	TW-800T	TW-800R	TW-800R-EXP	TW-800R-EXS
Frequency	2,403MHz~2,478M	MHz(An unassigned channel is automatically chosen by a frequency hopping function.)		
Communication		2 way communication 250kbps		
Input	Limit switch 1point Test switch 1point	<del></del>		
Output		Contact output* 4point Terminal block:M3(2P) Rated load voltage AC/DC30V per point Rated load current 0.5A per point	Contact output* 1point Terminal block:M3(2P) Rated load voltage AC/DC30V per point Rated load current 0.5A per point	Contact output* 1point Terminal block:M3(2P) Rated load voltage AC/DC30V per point Rated load current 0.5A per point
Interface		——— RS-232C×1		
Display	LED 1 point(Red/Green)	LED for receiving(Green) * 1point (Combination lighting switch for pairing) Power LED(Red) * 1point	LED for receiving(Green) * 1point (Combination lighting switch for pairing) Power LED(Red) * 1point	LED for receiving(Green) * 1point (Combination lighting switch for pairing) Power LED(Red) * 1point Communication monitor LED * 5point
Buzzer		Electrical buzzer 95dB/m		
Power	Coin Battery(CR2032)	DC24V±20%(DC19~28V)(Terminal block:M3)		
Consumption current	<del></del>	Under 60mA	Under 80mA	Under 90mA(At receiving standby under 50mA
Operation temperature range		Temperature 0-50 degree Humidity Under 80%		
Dimension	34W×71D×17.5Hmm (Except projection)	80W×100D×28Hmm (Except projection)	130W×100D×28Hmm (Except projection)	
Weight	Approx40g	Approx250g	Approx430g	Approx450g
Antenna	Pattern antenna	Dipole antenna(Diversity type)		
Battery life	Approx 300,000 shots (It changes with operating conditions.)
